

Saskatchewan Ice Dance Scholarship

In an effort to provide more funding / scholarships to a wider group of athletes, the Athlete Development Committee will be providing scholarships for successful elements in approved competitions that are verified by a technical panel. Ice Dance scholarship criteria are as follows:

1. The element must be identified and verified by the technical panel in the Free Dance segment for it to qualify for a scholarship.
2. The chart below indicates the elements for each competitive category.
3. Choreographic elements of the same nature (i.e., ChSt, ChTw, ChLi) are not eligible.
4. Elements where both skaters are assigned a level (i.e., Step Sequence, One Foot Turn Sequence, Synchronized Twizzles.), both skaters must achieve the same level or higher.
Example 1: DiStA2 + DiStB1 = scholarship for St1. Example 2: SyTwAB + SyTwB3 = no scholarship.
5. For Lift and Step Sequence elements, the scholarship is awarded the first time the level is achieved regardless of the type performed.
Types of Lifts – Stationary, Straight Line, Curve, or Rotational. Types of Step Sequence – Diagonal, Midline, Circular, Serpentine.
6. If either of the following assessments are determined by the panel of officials, the element will not be eligible for the scholarship:
 - a. Fall within the element, or
 - b. GOE of -3 for the element (majority of judges).
7. The couple's report card, verifying successful elements must be submitted to the Section Office by the couple and/or coach within fourteen (14) days of the completion of the competition. A running report will be kept, and scholarships will be sent out throughout the skating season.
8. A couple will only receive credit once for each successful element regardless of competing category.
